Hi there!

My name is Laura and I'm the creator of the Ambient Menu. An award winning, audiologist-led initiative guiding noise sensitive people to quieter, conversation-friendly restaurants.

The Ambient Menu is a grant-funded, community initiative helping people find conversation-friendly eateries.

We guide people to quieter cafes, restaurants, and bars, so that people who struggle to hear in background noise can enjoy a night out with friends without straining to hear.

We aim to take the 'din' out of dinner. Our system is firmly based on the science of sound, and food, to guarantee diners a memorable evening.
